Santa Catalina Island

You Can't Get Any Closer to Paradise.

A quick trip across the sparkling blue Pacific lands you in California's favorite island playground. The unspoiled natural beauty of Catalina will take your breath away, whether you're seeing it for the first time or rediscovering its charm all over again. Unforgettable any season of the year, Catalina remains at the top of the list of West Coast resorts.

Dive Right In!

Water sports are a highlight of a visit to Catalina, whether you want to get wet or stay dry. Water-skiing, jet-skiing, sailing, parasailing, scuba diving, snorkeling,

or cruising in a glass-bottomed boat are just a few of the ways to enjoy the crystal-clear ocean that surrounds the island. Or maybe just lying on a sandy beach sipping a cool beverage

is more your style. Whichever, the sea provides incredible opportunities to explore the richness of marine life, unlike any you can experience on the mainland coasts.

Landlubbers welcome!

If the boat passage to and from the Island satisfies your appetite for the water, there are plenty of ways for you, to enjoy Catalina that have nothing to do with the ocean.

You can visit the Interior, a natural conservancy containing flora and fauna found nowhere else on earth.

The mountainous terrain is ideal for camping, hiking, cycling or photography safaris, not to mention

guided tours in air-conditioned comfort. Buffalo roam free. Exotic plant life flourishes. Vistas stretch for miles, totally untouched by human development.
